# THE BEST AIR PURIFIER EVER

## Works 4 Ways to Attack Pollution from Air, Surfaces and Fabrics

**Works to eliminate odors, dust, smoke, pollen, germs, mold, bacteria, viruses, pet dander, dust mites and much more**

**Will eliminate the most noticeable indoor air pollutants in just 15 minutes**

**Provides relief from allergies and sinus**

By John Whitehead, Media Services

BioTech Research has announced EdenPURE®, the ultimate air purifier.

We believe the EdenPURE® is the best and most advanced air purifier on the market.

You have probably heard about the remarkable EdenPURE® on television across the nation and as heard on Paul Harvey News nationally.

It runs super quiet and requires no filter replacement.

Unlike typical air purifiers which have only 1 or 2 mechanisms of reducing pollution, the EdenPURE® has 4 mechanisms which attack pollution.

There are many different types of pollution and many of them, especially the worst, cannot be effectively reduced with the limited mechanisms of old-style air purifiers. The EdenPURE® 4-mechanism process destroys more types of pollution.

Some of the worst pollution comes from contaminated surfaces and fabrics. This remarkable air purifier not only attacks pollution from the air, but can also safely reduce pollution embedded in walls, ceilings, floors, carpets, furniture, clothing, and on countertops, as well as, other surfaces. It works to sanitize everything in the home.

The EdenPURE® can bring relief from the symptoms associated with sinus, and other respiratory discomfort. When pollutants are removed from the air you should sleep better, and feel better in a cleaner environment. The result is reduced fatigue and improved mental abilities.

The air purification technology in the EdenPURE® is that used by the federal government to purify air in the Space Shuttle and the International Space Station.

Old style HEPA type air purifiers only remove dust and some allergens. They do not remove the most harmful pollutants such as bacteria, viruses, mold and yeast.

And if you have one of those air purifiers that has no fan, beware. More will be explained on this as you read on.

The EdenPURE® has a super advanced system of air movement that is so quiet that you would have to put your ear up next to it to know that it's even running. And the EdenPURE® is virtually maintenance free.

For more on the new EdenPURE®, here is my remarkable interview with Julius Toth, Director of Product Development for BioTech Research.

**Q. BioTech Research has been in the air purification business for a long time and your previous air purifier model was the all-time best seller and was super effective. Why is the new EdenPURE® air purifier so much better?**

A. Yes, our previous model was an all-time best seller and in our opinion was the best air purifier on the market, which was also the opinion of our customers.

But the new EdenPURE® is much more advanced. Our previous model used 2 very effective mechanisms to eliminate pollution, which were combinations of activated oxygen and ultraviolet light.

The EdenPURE® utilizes 4 advanced electronic air purification mechanisms. I call it the EdenPURE® process.

The advanced technology

**EdenPURE® - Never breathe bad air again**

**Testimonies of a few of the many EdenPURE® satisfied customers**

The EdenPURE® is the most remarkable product that I have tried in years. All of the claims hold true. Not only did it eliminate the dust in my house, I have not had a sinus headache or scratchy throat since I began using it. The whole house smells fresh and clean. You would never be able to tell that I have two dogs and a cat. It is also nice not to have to bother changing filters. You just plug it in, turn it on and forget about it. It is truly refreshing to use a product that does everything that it is supposed to do and more. *Michelle Goldsmith*

The EdenPURE® Area Model

in the EdenPURE® is that used in spacecrafts such as the Space Shuttle and the International Space Station.

**Q. Why is it that you just can't have a good filter system to eliminate air pollution?**

A. There are many reasons. First of all, a lot of the most powerful pollutants such as viruses and bacteria and a number of allergens are so small, filters cannot trap them effectively. HEPA filter type air purifiers mainly remove dust and some allergens.

Secondly, filter air purifiers require the air to be brought through the machine. Therefore, it does not get to the air in the far corners of the room. And worse it does not eliminate the main source of the pollution which is contamination on surfaces, and embedded pollution in fabric and walls.

**Q. What about those air purifiers that have no fan?**

A. It has been well documented that an air purifier without a fan cannot possibly remove pollution to any substantial level. Those types mainly remove pollution that is very close to the unit. That's fine if you're purifying the air in a broom closet, but not for a wide area. Also, those units who you wiping off a plate to clean off the trapped pollution.

But unless those units have ultraviolet light, that plate contains live bacteria and viruses that can be harmful.

**Q. How does the EdenPURE® eliminate pollution without requiring the air to go through the unit, and how does it eliminate pollution on surfaces and fabrics?**

A. The EdenPURE® has 4 electronic mechanisms to attack pollution that mimic the way it is done by nature's thunderstorm. Thunderstorms produce highly activated oxygen which destroys pollution and puts negative ions in the air that also destroy pollen.

The air is now ionized fresh and free of the most irritating pollutants, which promotes a healthier environment.

Three of the 4 electronic mechanisms in the EdenPURE® go out and seek out pollution throughout the room, on surfaces, and in fabrics like guided missiles. The pollution cannot hide.

**Q. What is the range of pollutants that the EdenPURE® takes out of the air?**

A. It removes nearly all airborne and surface organic and inorganic pollutants.

Organic pollutants removed by the EdenPURE® include: fungus, mold, bacteria, tobacco odor, pet odors and most other household odors. It can also kill viruses.

The EdenPURE® removes inorganic pollutants including dust and many other chemical compounds present in the home too numerous to mention here.

The Wall Street Journal recently reported that there is 5 times more air pollution in a house than there is in the open air outside the house. Everyday you breathe all these pollutants into your lungs and many go into your body.

**Q. Does the EdenPURE® require filter replacement like the old-style HEPA air purifiers?**

A. No. There is a small 4 inch by 8 inch pre-filter that you simply clean periodically by running water over it. This pre-filter is made of highly durable mesh that will last a lifetime.

**Q. So then the EdenPURE® sanitizes everything in the house?**

**Independent Test Results**

EdenPURE® eliminates most pollution in 15 minutes. Bacteria, mold and yeast are among the most difficult pollutants to eliminate. Old style air purifiers rarely remove them to an acceptable level. The EdenPURE® eliminated virtually all the bacteria, mold and yeast in only 24 hours. This independent laboratory test was conducted by Dr. Dee M. Graham, one of the leading air pollution experts in the world.

The EdenPURE® that I used in my apartment for approximately a week was different than any air purifier that I have tried. Everyone was able to take deeper breathes than normal in the apartment. My cats now stay in the room more when someone is smoking. They would not before. My boyfriend's allergies were unnoticeable when he was inside. I personally like the fresh smell the EdenPURE® let off. *Jenny Kico*

I have terrible sinus problems. I'm also allergic to dog and cat dander, grass, dust, and ragweed. Before using the EdenPURE® I had to take antihistamines and use allergy/sinus nasal spray. I was embarrassed because my eyes were red and I always sounded like I had a cold. I then got the amazing EdenPURE®. I plugged in the EdenPURE® and went about my daily duties when I suddenly noticed I wasn't coughing or wheezing or clearing my throat. This was incredible. The EdenPURE® really works! I am so happy. My eyes are clear and I can breathe. I've tried many other air purifiers, they're all in my storage room with other failed products. The EdenPURE® truly does what it claims to do. *Diane C. Vance*

Model purifies air in an area up to 1,000 sq. ft.

The EdenPURE® Whole House Model purifies air in an area up to 3,000 sq. ft.

End of interview.

For readers who want to obtain the EdenPURE® at this 10 day sale price please see the Special Readers Discount

Coupon on this page. Those readers ordering after 10 days from the date of this publication must pay regular price.

For those readers ordering after 10 days from the date of this publication, we reserve the right to either accept or reject order requests at the discounted price.

### SPECIAL READER'S DISCOUNT COUPON

The price of the EdenPURE® Whole House Model, which purifies air up to 3,000 sq. ft. is \$372 plus \$22 shipping for a total of \$394 delivered. The price of the EdenPURE® Area Model, which purifies air up to 1,000 sq. ft., is \$302 plus \$12 shipping for a total of \$314 delivered. People reading this publication get a \$75 discount, free shipping and handling and pay only \$297 for the Whole House Model delivered and only \$227 for the Area Model delivered if you order within 10 days. They come in the decorator color of grey which goes with any decor. There is a strict limit of 3 units at the discount price - no exceptions please.

• To order by phone, call TOLL FREE 1-800-299-7557 Ext. EPA2996. Place your order by using your credit card. Operators are on duty 24 hours, 7 days.

• To order online, log on to [www.biotechresearch.com](http://www.biotechresearch.com)

• In this coupon.

This product carries a 60-day satisfaction guarantee. If you are not totally satisfied, your purchase price will be refunded. No questions asked. There is also a one year warranty.
